MECHANICAL DRUM HANDLERS MODEL BGN-1 / BGN-2

Drum handling made easy. A good field of vision allows the operator to continually observe the drum being handled. The operator does not leave the drivers seat. The unique Grab Beak design provides a high clamping force, even when traveling over uneven ground. With few moving parts this attachment requires no down time for repairs. Suitable for 205l steel drums, plastic drums, open top and ring lock drums. The type BGN-1 has

Type	BGN-1	BGN-2
No. of Drums	1	2
SWL (kg)	1000	1500
Load Centre	1210	1250
Unit Weight (kg)	72	95
Pocket Cts (mm)	250	600
Pocket Size (mm)	185x60	185x60

been designed to lift a single drum while the type BGN-2 has been designed to lift 2 drums side by side or a single drum by either Grab Beak mechanism. A contoured rest acts at a point low enough down the drum to prevent damage to the drum and its labeling.
